DIVISION OF
OIL, GAS & MINING

MEMORANDUM

TO: SUE LINER, DIVISION OF OIL, GAS, AND MINING
FROM: *JB* JOHN T. BLAKE, DIVISION OF STATE LANDS & FORESTRY
SUBJECT: Reclamation of ENercor Atchee Ridge Site

On July 15, 1986, I met with a contractor and a representative of Enercor in the Atchee Ridge Project Site. A two foot berm was constructed along the northern side of the site where erosion problems are present. The berm was constructed of tar sand material and was compacted. A veneer of dirt and rock was then placed along the outer edge of the berm to retard runoff from the berm itself and to facilitate revegetation along the edge of the hill.

I believe that these measures will prevent the formation of deep rills on the hillside and will largely mitigate past problems with the site. Enercor has requested release of their \$3,000 bond held by the Division of State Lands and Forestry now that this work has been performed so that the contractor can be paid. With your concurrence, I will ask the Director to release this bond.

bp

*I spoke with John on 7/22/86.
Told him the Division had no
problems with bond release.
